# Certificate of Completion

This award is given to

Real World  
AI Project

## Khangjrakpam Arjun

FOR THE HIGH COLLABORATION IN THE PROJECT:

*Predicting autism in toddlers using machine learning*

### IMPACT

This certificate recognizes the valuable contributions made as a collaborator on the research project that developed a machine learning model for predicting autism in toddlers. The resulting research paper showcases the potential of this groundbreaking approach for early detection, enabling timely intervention and positively impacting the lives of countless children affected by autism spectrum disorder.
